

INFORMATION FOR AUTHORS

Manuscript Submission. Manuscripts for *Journal of Fourier Analysis and Applications* must be submitted via **email** (as a separate email attachment) in PDF format to jfaa.mathematik@univie.ac.at, with the word “submission” in the subject line.

The abstract should indicate the subject of the paper and its main results as well as the motivation for the research, including possible applications. Also send a list of keywords and Mathematical Reviews Classification numbers. Submission of a paper represents that the paper is not under consideration elsewhere. Standard copyright assignments will be made by authors. Colored figures appear only in the electronic version of the journal. For the printed version authors should ask for the fee applicable to the concrete case.

Once a paper is accepted (based on two positive reviews) the manuscript will be published within four months upon arrival of the final version (PDF plus \LaTeX).

Manuscript Style. Papers must be prepared in some form of \TeX with consecutively numbered pages. In \LaTeX use the Article.sty style. In other versions of \TeX use *plain vanilla*; keep macros to a minimum.

References. References should be arranged in alphabetical order at the end of the paper.

Figures. Authors are responsible for providing figures (if any) of suitable quality for reproduction. Each figure should be on a separate page in dense black ink on stiff white paper or as laser proofs.

Offprints. There are no page charges. Authors jointly will receive 50 free offprints. Additional offprints may be ordered prior to publication.

Open Choice Publication. In addition to the normal publication process (whereby an article is submitted to the journal and access to that article is granted to customers who have purchased a subscription), Birkhäuser now provides an alternative publishing option: Springer Open Choice. A Springer Open Choice article receives all the benefits of a regular ‘subscription-based’ article, but in addition is made available publicly through Birkhäuser’s online platform SpringerLink. To publish via Springer Open Choice, upon acceptance please visit www.springeronline.com/openchoice to complete the relevant order form and provide the required payment information. Payment must be received in full before publication or articles will be published as regular subscription-model articles. We regret that Springer Open Choice cannot be ordered for published articles.

Further details on these matters may be obtained by writing to the editorial office:
